

**THE BAKER GROUP, LP
BUSINESS CONTINUITY PLAN
CUSTOMER DISCLOSURE DOCUMENT
December 8, 2008**

The Baker Group, LP has developed and maintains a business continuity plan to address interruptions to our normal course of business. These plans are reviewed annually and updated as necessary. Our plan outlines the actions, The Baker Group, LP will take in the event of a building, city-wide, or regional incident. An off-site facility located in Oklahoma City, with redundant computer capabilities, has been established. Key personnel will be re-located to this facility in the event a significant business disruption has been declared.

Our firm maintains its hard copy books and records and its electronic records at the Oklahoma City, OK office. The electronic records are backed-up at least once daily by copying the data to servers located at our back-up facility. Additionally, a back-up tape is created and carried off-site each night. A back-up tape created on the 15th of each month is transported to a secure location for permanent storage.

Hard copy reports generated on behalf of our clients are stored in-house for a period of thirty days. Reports are downloaded to our web-site and are accessible to our clients with a valid password. As with the hard-copy version, the internet versions are available for the thirty day period following the date generated. The web-site server is maintained at an out-of-state location.

Our recovery time for business resumption, including relocation of personnel or technology is four (4) hours. This recovery objective may be negatively impacted by the unavailability of external resources and circumstances beyond our control.

In the event of a significant business disruption, customers may e-mail their sales representative at the current web address substituting @bakerbackup.com for @gobaker.com.
